on the

DRAFT ACTION MEMORANDUM

FOR THE REMEDIATION OF CONTAMINATED SOIL

ON PORTIONS OF

THE OTTAWA POWER STATION

Formerly located at 217 E Ottawa St., Lansing, Michigan

The City of Lansing, with the approval of the Michigan Department of Environmental Quality, is recommending that a non-time critical removal action be conducted to remediate contaminated soils located on the site located Center Street.

Copies of this Draft Action Memorandum and other related City of Lansing documents will be available during regular business hours for review at:

Lansing Brownfield Redevelopment Authority
401 South Washington Square, Suite 100
Lansing, MI 48933

The administrative record, which contains the information upon which the final decision will be based, is also available for review at:

Lansing Brownfield Redevelopment Authority
401 South Washington Square, Suite 100
Lansing, MI 48933

Comments on the Draft Action Memorandum may be submitted from October 1, 2008 to October 30, 2008. Comments may be submitted to:

Brian D. Anderson; Center City Director
Lansing Brownfield Redevelopment Authority
